

STOP FOR SAFETY

All associates are empowered, have the right and duty to stop unsafe acts in the workplace.

You should not and don't allow your colleagues or visitors to work in unsafe conditions or scenarios.

Immediately report any hazardous conditions to your supervisor or manager or HR.

In the case of an emergency, pull the fire alarm and evacuate the facility.

Be part of the solution, point out safe work practices to others.

If you "see it, say it"... don't ignore any unsafe scenario!

Together, let's do our part to keep each other safe
